

# Student-Centered Coaching

These training sessions are offered by Iowa's Area Education Agencies; Iowa educators and administrators are welcome to attend in any of these locations.

Student-Centered Coaching is a coaching model developed by Diane Sweeney as a way to “put students’ needs front and center,” bringing both formative assessment and the Iowa Core Standards to the forefront. Student-Centered Coaching promotes a partnership between teacher leaders and teachers to (1) understand where students currently are in their learning, (2) establish a clear vision for where they need to be and (3) develop a path to get them there.

Seven components of Student-Centered Coaching include:

1. Organizing coaching through cycles
2. Setting goals for student learning
3. Using standards-based learning targets
4. Using student evidence to co-plan
5. Co-teaching to refine teaching practice
6. Measuring the impact of coaching on student and teacher learning
7. Partnering with the school leader

## Intro to Student-Centered Coaching

In this course facilitated by Diane Sweeney Consulting, teacher leaders will learn to implement student-centered coaching, a coaching model that increases teacher effectiveness and student achievement by focusing on student outcomes. Emphasis will be placed on coaching cycles, using formative assessment data to drive instruction, embedding standards into coaching conversations and partnering with principals to lead the coaching effort.

## Leading Student-Centered Coaching Webinar Series with Diane Sweeney

We are proud to offer a webinar series and book study based on the forthcoming book, *Leading Student-Centered Coaching: Building Principal and Coach Partnerships* (Corwin, June). We have found that in many districts, there is a lack of support to principals regarding how to lead a coaching effort. Throughout this webinar series, we will tackle the tough issues that are associated with integrating coaching into a school. In this way participants will be provided with strategies for ensuring that coaching is getting the desired results. *Leading Student-Centered Coaching* will be a required text as it will be used throughout the webinar series.

This webinar series will include eight, 75 minute sessions. Sessions will be recorded so participants can join live or listen later. Participants can sign up for the whole series or specific sessions.

### Webinar Dates:
