

Teachers Wanted! Join ICEC's New E-STEM Project

Connecting to Iowa Core: Authentic Iowa Wildlife and Natural Resources Data for the Classroom

ICEC is looking for 20 middle and high school teachers to participate in a new project designed to bring authentic Iowa data into the classroom. The goal of the project is to enhance teachers' ability to address Iowa Core Science Standards and connect students to real-world conservation science and research. Teachers are asked to participate in a focus group to identify needs, target standards, and make suggestions for adapting materials for use at a 6-12 grade level.

Benefits of participation include:

- Assisting in the development of this innovative project and being the first to try the data and materials in your classroom
- Meeting fellow educators with a passion for conservation and environmental education
- \$100 stipend following completion of focus group and follow-up survey
- 1-year membership to ICEC—join our network of environmental educators!

Focus group options:

- March 3rd, 8:30—11 AM, Room 139, Heartland AEA (6500 Corporate Dr., Johnston, IA 50131)
- March 20th, 3:30-6 PM, Room 139, Heartland AEA
- March 27th 3:30-6 PM, video conference via Zoom
