

Cari Hepperle

Occupational Therapist

Cari is always striving to learn and better herself for the benefit of her kiddos and their families. She is great with team collaboration, making sure she is looking at the whole child, and is a great coach who welcomes input from everyone on the team.

She juggles many different hats treating babies, supervising and evaluating school age children, being co-chair of our OT/PT department, and being on additional committees like the Assistive Technology Team.

We are so lucky to have her in our agency.
